Disclaimer

- I, Eliseo Orrantia, have no affiliation, sponsorship, honoraria, monetary support, or conflict of interest from any commercial source.

SHARING

The challenge

- Sharing and managing the information that allows us to function as an interprofessional team (ie. program descriptions, policies, medical directives, patient resources).

Technology Solution

- Principles
  - -Free
  - -Open-source
  - -Widely accessible
  - -No advertising

MI OWL

MEDICAL INTERPROFESSIONAL
OPEN SOURCE WEB-BASED LIBRARY

Welcome to MI OWL!

Welcome to Medical Interprofessional Open source Web-based Library, MI OWL.

Here Canadian Medical clinics and small Hospitals can create their own document libraries to organize, search and share the information (policies, program descriptions, forms, medical directives, patient resources, etc.) they rely on.

MI OWL is created and managed by front line health care providers that use the site themselves.
We are committed to being: **a free service, open source, widely accessible and advertisement free.**

- Learn more about MI OWL by clicking on "about".
- Want to look through existing libraries? Click on "OWLs" above.
- Searching for something specific? Click on "site search" above.
- Interested in learning how to create a new library? Click on "about" and then click on "Create New OWL".
- Questions, or need support? You can email us at support@miowl.org.

MI OWL

MEDICAL INTERPROFESSIONAL
OPEN SOURCE WEB-BASED LIBRARY

Dropbox vs MI OWL

- Internet required to share
- Can decide to share documents
- Organization by file folders
- 3rd party software

- Internet based
- Sharing is integral function
- Integrated organization and structure
- No 3rd party software

Dropbox vs MI OWL

- Access by computer and Iphone
- Bulk uploading easier
- For profit application –no cost to most users
- Application beyond health care

- Can work across mobile devices
- Files uploaded with descriptors
- Non commercial application
- Health care specific
