

# EFFECTIVE GOVERNANCE FOR QUALITY AND PATIENT SAFETY

# Objective

- Understand the importance of board leadership to assess and improve an organizational culture focused on quality.

# PRINCIPLES

## CULTURE

- Every health organization must aspire to a culture of quality and patient/client safety
- The board has a key leadership role to play in fostering and supporting such a culture

# CULTURE

## A DEFINITION

Shared basic assumptions that are:

- Invented, discovered or developed by the group as it...
- Learns to cope with the problems of internal integration and external adaptation in ways that...
- Have worked well enough to be considered valid, therefore...
- Can be taught to new members...
- As correct ways to perceive, think and feel in relation to these problems.

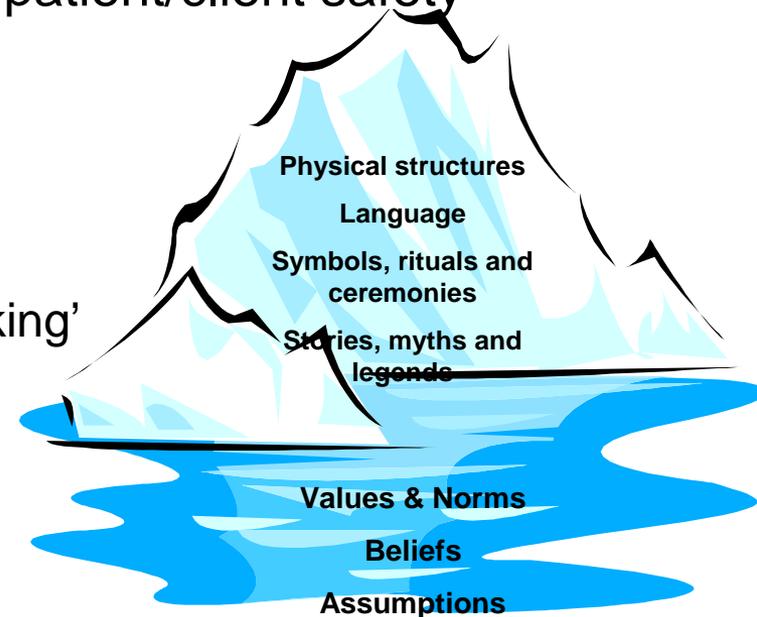

*Reference: Schein in Weick and Sutcliffe (2001, page 21)*

# Culture

## A Definition

Culture is a combination of:

- An organization's structure, control systems, rules, regulations and practices designed to enhance quality and patient/client safety
- The values it professes
- Its values in practice
  - 'the way we do things around here'
  - 'the way people behave when no one is looking'
  - 'behaviours that are condoned/rewarded'

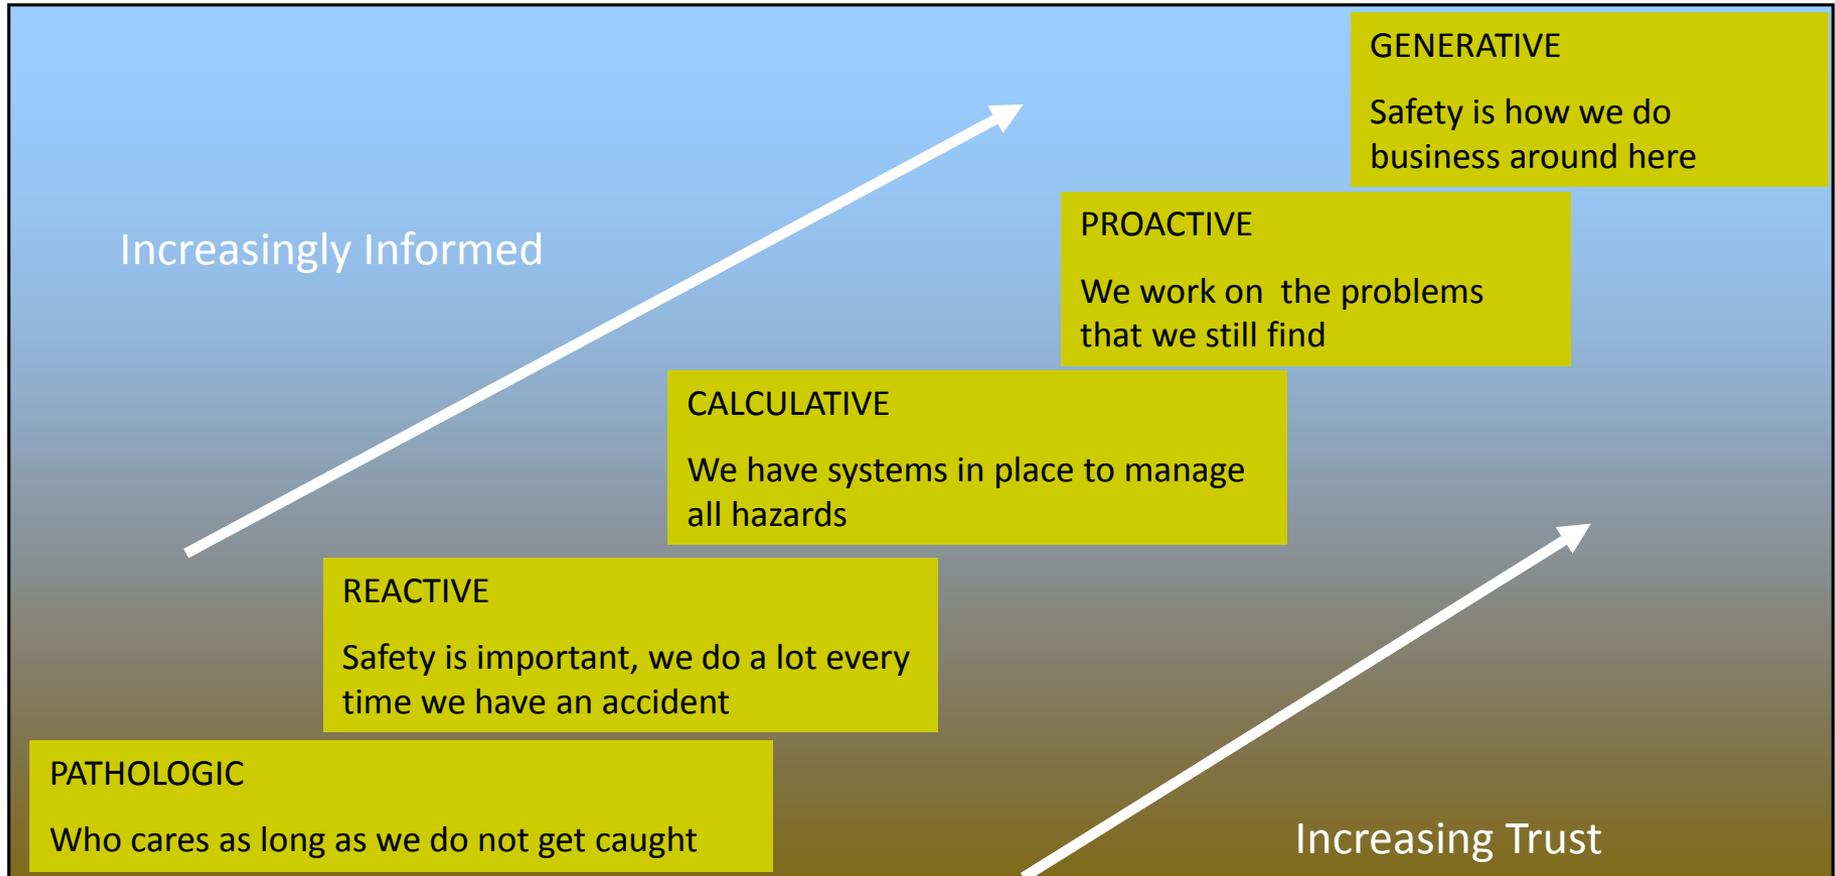

# THE BOARD'S OVERALL CULTURE

## Playing a Leadership Role in the Pursuit of Excellence:

- A robust engagement of board members demonstrated by:
  - High enthusiasm
  - Constructive deliberations and respectful dissent
- Mutual trust and willingness to take action with a commitment to the organization's:
  - Vision, mission and values
  - Openness to discussing performance issues (financial and quality)
  - Taking action when necessary
- A commitment to high standards and the pursuit of excellence in all endeavors
